Author: Rich Friedman  
Author's Title: Term Bulk Power Marketer  
Author's Telephone No.: (608) 458-8222  
Witness: (If other than Author)

---

**Data Request No. 6.05:**

Given the amount of renewable resources currently online and projected to come online, describe whether each of the owners are willing to submit these units into the MISO queue as economic, rather than self-scheduled or must-run.

**Response:**

WPL is willing to submit generation offers into the MISO energy market for its generation resources as economic, rather than self-scheduled/must-run, provided that WPL marketing staff is able to assure that such offer structure is likely to result in superior economic results that will benefit WPL's customers.
